Mr Terry Webb
Director
The Kejob Group
44 Prince Street
Toowoomba, Qld 4350

Dear Terry

On behalf of Queensland Motorways (QML) I would like to thank you for The Kejob Group's input into the current telecommunications projects being undertaken by company. Since Keyjob's engagement in 2005, we have been impressed by your professionalism and the ethical manner in which you and Nick Adams have performed the tasks associated with the projects. At all times you have responded to our requests and shown a strong sense of commitment to achieve the best possible solution and business outcomes.

In such complex projects that are currently being undertaken by QML, it is refreshing to work through the various possible scenarios at this planning stage. I am sure that the time spent in the preparation on QML's telecommunications master plan will bear fruit during the actual implementation phase.

I look forward to our continued business association as the project moves forward. Thanks again for your assistance

Yours sincerely

Business Development Manager
